

Catch & Snatch

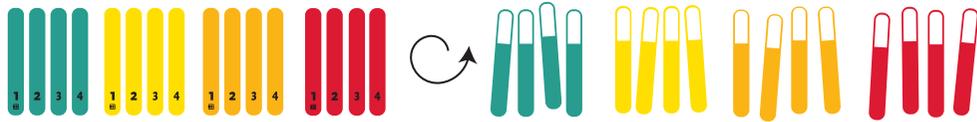

Purpose of the game

To snatch as many numbers as possible from the other players.

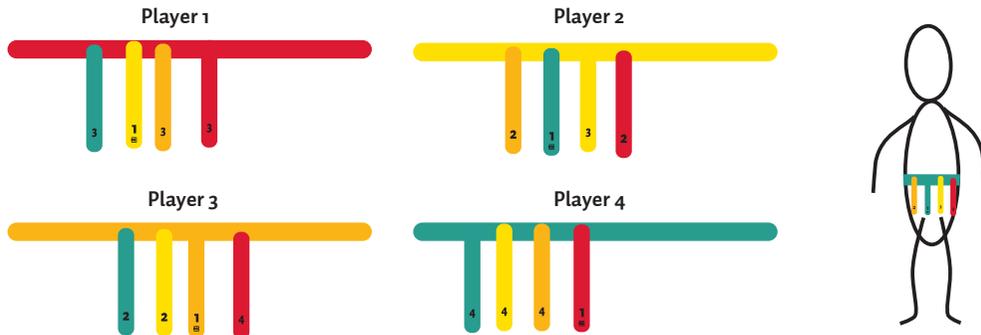

Preparation

Place the tails face down and shuffle them.

Each player randomly takes 1 of each color.

Stick the 4 tails on 1 belt and tie it around your belly with the velcro.

Rules

The aim is now to run to the other players to try and snatch their tails but avoid getting your own tail snatched.

When you manage to snatch one, place it on your own belt, next to your other ones.

When a player has no tails left then the first round ends and all players count their points. Play 2 more rounds to see who is the winner!

Points

Add all the numbers on your tails.

Add 1 point for every two strips of the same color.

Add 2 extra points if you have four of the same color.
